

Erasmus+ KA201 Project

Supporting Opportunity in Schools: Promoting Educational Equity

Project Number 2017-1-ES01-KA201-037990

This project is aimed at empowering schools to enhance and to assess equity through the development of several intellectual outputs and actions about the importance of assessing equity in schools to raise awareness among educational stakeholders.

Aquest projecte té com a objectiu capacitar les escoles per fomentar i avaluar l'equitat mitjançant el desenvolupament de diversos productes intel·lectuals i accions de difusió per tal que els dirigents escolars prenguin consciència de la importància d'avaluar les condicions d'equitat dels centres educatius.

From the 5th to the 9th of March we had a **training activity in Barcelona**, where we agreed a new definition of Equity in Education that fit our different educational systems. We reached this definition through several activities, such as brainstorming... Above, you can see a word cloud on the topic. Below, our definition

Del 5 al 9 de març vam tenir un **curs de formació a Barcelona**, on vam acordar una nova definició d'Equitat en Educació, que s'adaptés als nostres diferents sistemes educatius. Vam arribar a aquesta definició a través de diverses activitats, com ara una pluja d'idees... A dalt, podeu veure un núvol de paraules sobre el tema. A sota, la nostra definició

“Equity in education is the right to a fair and inclusive educational system that ensures access to a high quality education and provides opportunities for personalised learning, personal and social development”.

During the training activity, we established a consensual definition of equity in education. Based on the keywords in the definition, we set six dimensions. For each dimension, it is necessary to delimit its contents, establish the level of achievement and indicators, which will allow us to evaluate equity in schools.

This is part of our conceptual framework and methodological guide, which are intellectual outputs of our project.

Below, you will see our definition with an explanation of the six dimensions.

En el curs de formació vam establir una definició consensuada d'equitat en educació. A partir de les paraules clau de la definició vam establir sis dimensions. Per a cada dimensió cal delimitar els seus continguts, establir nivell d'assoliment i indicadors, que ens permetran avaluar l'equitat del centre educatiu.

Tot això forma part del nostre marc conceptual i guia metodològica, productes intel·lectuals del nostre projecte.

A la imatge de sota, veureu la nostra definició d'equitat i l'explicació de cada una de les sis dimensions.

“L'equitat en educació és el dret a un sistema educatiu just i inclusiu que asseguri l'accés a una educació d'alta qualitat i ofereixi oportunitats per a l'aprenentatge personalitzat, i el desenvolupament personal i social”

Inclusion is related to learners with SEN, socioeconomic status or are newcomers. An inclusive school responds to the learners' needs in all areas of school life. Staff must be able to deal with these needs through personalised education, additional support and resources ensuring well-being, achievement and the development of learner aspirations

Fair education is a universal right that guarantees every child to achieve their highest individual potential

Equity in education is the right to a **fair and inclusive** educational system that ensures **access** to a high quality education and provides **opportunities for personalised learning, personal and social development**

Opportunity in education is the possibility for learners to develop themselves through a wide range of chances to reach their maximum potential, both personally and socially

Personal and social development is the process in which every learner should achieve their own goals through activities in order to empower their wellbeing and self-confidence

Personalised learning is a process taking into account the context of the learner (including personal characteristics and social and cultural background) in order to achieve the optimal progress (skills and personal development)

Access is the right to a high quality education which provides a wide variety of learning opportunities to support the development of academic attainment and the socioemotional skills needed for the learner to take their place in modern society

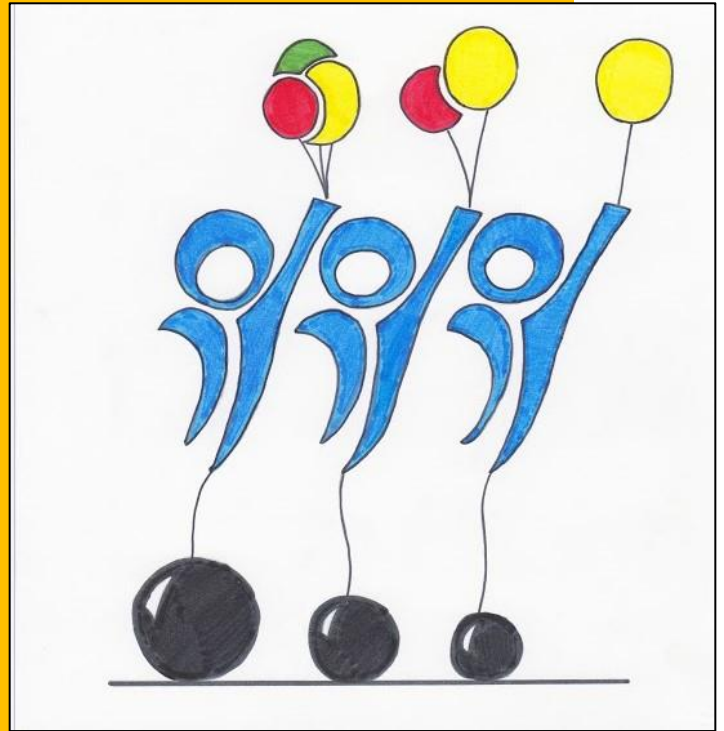

Una de les activitats del projecte ha estat l'organització d'un concurs per triar el logotip del projecte.

Aquesta activitat s'ha dut a terme en els centres educatius del projecte o bé en centres vinculats amb les organitzacions participants.

L'activitat tenia com a objectiu fomentar que els alumnes i els centres entenguessin el concepte d'equitat i prenguessin consciència de la seva importància.

La valoració d'aquesta activitat ha estat molt satisfactòria i s'han creat molts logotips que reflecteixen el concepte d'equitat.

El logotip guanyador va ser creat per un alumne de l'Istituto Casati d'Itàlia.

One of the activities of the project was the organization of a competition to choose the logo of the project. This activity was carried out in the schools of the project or in schools linked to the participating organizations.

The activity was intended to encourage students and schools to understand the concept of equity and to become aware of its importance. The evaluation of this activity was very satisfactory and many logos reflecting the concept of equity were created.

The winning logo was drawn by a student from Istituto Casati in Italy. You can see it above.

These are the colleagues who attended the training activity in Barcelona

Aquests són els companys que van assistir al curs de formació a Barcelona

We will meet again in Swansea (UK) to continue working on the project. The meeting will be from the 14th to the 16th of May.

Ens tornarem a trobar a Swansea (UK) per continuar treballant en el projecte. La reunió serà del 14 al 16 de maig.

We already have our project website. From the link below, you can access all the information about the project, such as the objectives, newsletters, pictures...

You can access also one of our intellectual outputs, the Educational Equity Portal, with references on the topic and presentations on equity in our educational systems.

Ja tenim el nostre lloc web de projecte. Clicant l'enllaç, podreu accedir a tota la informació sobre el projecte, com ara els objectius, butlletins, imatges...

També podeu accedir a un dels nostres productes intel·lectuals, el Portal d'Equitat Educativa, amb referències sobre el tema i presentacions sobre l'equitat en els nostres sistemes educatius.
